PROFILE

Mechatronics Engineer with extensive, hands-on experience in industrial field installation, project commissioning, and system deployment across energy systems and telecommunications. Proven ability to own deployments end-to-end and execute complex electrical, mechanical, and networking installations in operational environments. Currently pursuing a Master of Science in Data Science, which combines my practical engineering background with advanced analytical and data-driven problem-solving methods. Highly adaptable and possessing a strong ownership mindset, eager to deliver high quality, autonomous field engineering outcomes.

EDUCATION

Master of Science in Data Science ...expected (January 2026)
Arden University, Berlin, DE

Bachelor of Engineering with honours in Mechatronics December 2015
Chinhoyi University of Technology, Chinhoyi, ZW

SKILLS

- | | |
|--|---|
| • Ethernet, PoE, Switches, Network Testing, Troubleshooting | • Machine Learning, Deep Learning , Pytorch, Tensorflow, Scikit-learn |
| • Fiber Optic Instalations and testing | • AutoCAD, MATLAB, |
| • Control Systems, PLC Programming and Installations | SolidWorks, Autodesk, Proteus |
| • Electrical Wiring , Power Cabling , Cabinet Work, Hardware Mounting, Termination | • Version Control (Git/Github) |
| • End-to-End Project Management , Site Visits , Risk Assessments | • SQL (Querying and managing relational databases) |
| • Machine Learning, Deep Learning , Pytorch, Tensorflow, Scikit-learn | • Data Visualisation(Power BI, Tableau) |
| | • Cloud Platforms(Azure, AWS) |
| | • Computer Vision (Image Classification, segmentation) |

WORK EXPERIENCE

Solar Installations Engineer January 2023- June 2024
Go Solar (Pvt) Ltd., Cape Town, RSA

- Develop overall project management plans.
- Owned the end-to-end project lifecycle for over 100 solar PV installations, from site-survey/risk assessment to successful commissioning and quality checks.
- Determine suitable locations for solar PV installation based on site visits and risk assessments.
- Coordinate with external engineering firms, subcontractors, and internal engineering disciplines (civil, electrical, network, permitting) to ensure timely, cost-effective, and high-quality project completion.
- Organize and oversee internal and external design review meetings, ensuring compliance with internal quality standards with a goal of achieving ISO9001 certification.

Fiber Optic Technician (FTTH)

October 2018 – December 2020

Frogfoot Networks , Cape Town, RSA

- Executed high-quality field splicing, testing, and troubleshooting of fibre optic networks and links.
- Developed strong industrial networking fundamentals through hands-on work with cable runs, termination, and network fault localization in high-demand environments.
- Maintained detailed project and safety documentation, including documenting work completed and ensuring adherence to safety protocols.
- Successfully locating faults and mobilizing resources within a minimal time to counter faults.

Branch Supervisor

August 2015 – October 2017

Take a Lot,, Cape Town, RSA

- Manage fleet and last-mile delivery operations, including driver scheduling, route coordination, and delivery timelines.
- Oversee adherence to safety protocols, proper use of PPE, and vehicle maintenance.
- Monitor costs associated with fleet usage and lapses, implementing cost-control measures.

Electrical/ Mechanical Engineering Intern Zimbabwe

January 2014 - December 2014

Steel Makers (Pvt) Ltd, Masvingo, ZW

- Performed hands-on electrical installation work, including circuit design, wiring of electrical motors, and extensive power cabling.
- Gained exposure to PLC programming and installations, relevant to machine-interface projects in the industrial sector.
- Received hands on training in the use of workshop equipment and in the maintenance of complex plant equipment.

CERTIFICATIONS & MEMBERSHIPS

- Green Solar 101
- FOA certified Fibre Optic Technician
- Zimbabwe Institution of Engineers Graduate Member (2015)
- Engineering Council of SA- Candidate (2020)

PERSONAL INTERESTS

- Enjoys extensive personal travel and hiking
- Other interests include playing piano, playing snooker and watching football
